

Millersburg Branch Office

Halifax National Bank
Millersburg, Pennsylvania

Completed as a design build project with Adair Construction Services of Harrisburg, this 2,400 SF one story building for Halifax National Bank, located in the adjacent town of Millersburg, is the 127 year old bank's first new branch. The building exterior features a two color brick veneer with precast lintels and a standing seam metal roof the materials were selected to establish a sense of permanence and trust that they will be there to serve their clients for another 100 years. The efficient interior layout features several offices, a conference room and well appointed teller lobby including custom wood raised panel teller stations with solid surface counter tops and coffered ceilings with ornamental lighting. The building also has 3 drive up teller lanes, and a separate ATM and night deposit lane to help reduce congestion for customers who do not require teller transactions.
